

MEXICANS SLAY TWO AMERICAN NAVAL SEAMEN

Three Others Wounded in Street Fight in Guaymas; Chief of Police Accused of the Shooting

Guaymas, Sonora, Mex., April 11.—The killing here of Seamen J. C. Klestow and W. W. Corrie and wounding of three sailors from the United States cruiser California, resulted today in a request from Americans at Mazatlan that a cruiser be detailed to the Pacific port. Anti-American feeling is said to have resulted at other points down the west coast and as well to have occasioned the fight between American sailors and police here.

An official consular report from an eye witness of the fight of Wednesday morning says the Americans were drunk. The men are said to have been shot by the chief of police. For some time irritation on the part of Mexicans had been evident admittedly caused by the presence in Mexican waters of American ships of war. All sailors permitted to go on shore leave had been given strict orders to maintain friendly relations.

WILL INSIST UPON THOROUGH PROBING

Washington, April 11.—The attention of the state department which lately has been given a vexatious problem arising from the wounding of American soldiers and other American citizens along the Mexican border, was directed today to the serious situation resulting from the slaying of a petty officer and a sailor from the United States cruiser California at Guaymas. Charles D. Taylor, consular agent at Guaymas, in reporting the deaths to the department said a strict investigation was being made.

The shooting was done by the chief of police of Guaymas, and as American sailors going ashore in a foreign country invariably go unarmed, officials here will insist that the circumstances of the slaying be probed to the bottom.

If the Mexican authorities are unable to show there was provocation for the attack by the armed police, serious consequences may ensue. It was pointed out that the double killing might be taken as an indication

of the inadequacy of the present government and have an influence when the United States gives further consideration to the question of recognition of the Huerta government.

Corrie's nearest relative is A. S. J. Corrie of Los Angeles. He had served in the navy two years. Klestow's nearest relative is his father, who lives in San Francisco. He had been in the navy eleven years. Both men had excellent records. Admiral Cowles reports they were not likely to be aggressors in a street fight.

HUERTA UNABLE TO SAVE THE COUNTRY

Mexico City, April 11.—That the withholding of official recognition by the United States materially has weakened the Huerta government is the opinion generally expressed by public and privately admitted in certain Mexican official circles.

The new rebel movement has made greater progress than has the provisional government in suppressing insurgency and it no longer is a secret that the condition of the treasury is such as will not permit the continuation of military operations much longer. This has been publicly admitted by the Mexican minister of the interior, Garcia Granados.

The chamber of deputies has not approved the proposed foreign loan, but its failure to take up this matter is said to be due to a desire to avoid further embarrassing the finance department, which so far has been unable to arrange for the flotation of the loan, notwithstanding recent assurances to that effect from London. It is assumed by the government that its inability to issue the loan is due directly to non-recognition by Washington.

Editorial writers comment upon this phase of the situation and there has begun a propaganda in the local press tending to place responsibility for the fate of Mexico on the United States.

Further complicating the financial difficulties of the government is the steady increase in the exchange rate, which within a week has mounted from practically parity to 220 and that rate only is available to favored patrons. In an effort to check the upward tendency of the exchange rate the minister of finance is urging congress to authorize an increase of ten per cent in the export tax on gold. This has brought Mexicans to the realization that even the national currency no longer is maintained on a gold basis.

Business conditions in Mexico are reflecting seriously the revolutionary disturbances. Smelters at Monterey, Velardena and Torreon have been closed for lack of fuel. At San Luis Potosi the smelters are running on half time and at Agua Calientes at a third capacity. At Chihuahua and Matehuala the mills are running on full time.

Railroads Crippled
Transportation facilities remain seriously crippled.

Rebels practically control the states of Sonora, Coahuila and Durango, the situation in the south where Emiliano Zapata still is in control has not changed materially. In Nuevo Leon the federals slowly are regaining possession of the railroad to Laredo on the Texas border but the rebels pushed back from this line of communication, are extending the zone of operation far to the eastward.

In southern Coahuila the rebels hold the immediate neighborhood around Torreon and between there and Chihuahua interrupt traffic on the Mexican Central railroad almost at will.

So uncertain is the situation in the state of Durango that the government itself is unable to say whether the state capital is held by government forces. There is no communication between Durango and Mexico

City either by railroad or telegraph.

Captured By Rebels

Monterey, Mexico, April 11.—Passengers arriving here today from Matamoros report that the towns of China and Certeche in the state of Nuevo Leon, near the Matamoros railroad have been taken by rebels commanded by Jesus Carranza. Telegrams received from Certeche, in the mountains north of the Matamoros line, say a force of rebels on the Nogales ranch are threatening the town.

Arrivals from Bustamante, Lampazos and Villalamos, in northern Nuevo Leon say several hundred rebels are operating in the Samulique mountains to the eastward of those cities. General Mier has dispatched troops to guard the Matamoros line and to attempt to drive the rebels back to the westward.

Victim a Veteran

San Francisco, April 11.—John C. Klestow, the San Francisco marine who was killed at Guaymas, was a native of this city, 37 years of age. His father is a retired sea captain. Klestow was a veteran of the Spanish-American war and was decorated for bravery on the field. His record in the navy was a splendid one. He had been on the cruiser California less than a year.

Rebels Fail Again

Naco, Ariz., April 11.—Another attempt to annihilate Naco, Sonora by dynamite, without apparent care for the result to the Arizona town, failed late today. State troops loaded 600 pounds of dynamite and 500 pounds of giant powder on a car and dispatched it by gravity toward the two border towns. The time fuse failed to operate.

The federals hauled the car to the garrison and celebrated the capture boisterously. To prevent a recurrence of the attempt, General Ojeda ordered a long section of the railway track torn up below Naco. The work was accomplished without opposition.

There was no resumption of the cannonading this afternoon.

Peace Commission

El Paso, April 11.—Eight Huerta peace commissioners arrived here today from Mexico City and will proceed to Tusson, Ariz., tomorrow. They are denounced by local constitutionalists as plotters for the Huerta government, sent to advance a plea for peace on the ground that the insurgent border states will seek annexation to the United States, which program has been decried by Sonora and Coahuila leaders.

NEW PHASE OF MERGER

Government May Take Charge of U. P. & S. P. Properties Through Receivership

Washington April 14.—There is a probability of the government taking charge of the properties of the Union Pacific-Southern Pacific merger through receivership if the United States court at St. Louis does not approve the new plan of dissolution rejected by Atty. Gen. McReynolds.

It developed today that there is serious doubt among the officials of the department of justice as to the power of the St. Louis court to extend the time limit given by the supreme court within which to accomplish the disintegration under the Sherman law. The railroads have until May 10 to present a plan of dissolution acceptable to the court. Failing to comply with this condition the supreme court provided for settlement of the question by government receivership.

Mr. McReynolds today was advised that the railroad hopes to submit its plan to the court on April 21. The attorney general will oppose its approval though he may not go to St. Louis.
